Summary

Aspiring Software Developer and AI enthusiast with hands-on experience in Java, React, Spring Boot, and web application development. Skilled in frontend and backend development, REST API integration, and database management. Passionate about building scalable applications and solving real-world problems through technology. Quick learner with strong teamwork and problem-solving abilities.

Work Experience

Coding Samurai Remote

Web Development Intern January – February 2026

- Completed a one-month online internship focused on web development concepts and project implementation.
- Created responsive web pages using HTML, CSS, JavaScript, and React, focusing on component-based architecture.

Gadgeon Kochi, Kerala

Web Development Intern January - April, 2025

- Engineered a Java-based utility to convert binary data into JSON format, improving data handling and backend processing efficiency.
- Built a full-stack Electric Scooter Booking System using React and Java Spring Boot, implementing responsive UI and REST APIs via Axios.
- Managed backend functionalities including scooter listings, booking management, and database operations using PostgreSQL.

Projects

E-Scooter Rental System

- Tech Stack: React, Java Spring Boot, PostgreSQL
- Developed a full-stack rental platform allowing users to browse, book, and manage vehicle rentals online.
- Designed scalable RESTful endpoints in Java to handle user authentication, booking states, and data persistence.
- Planned future modules including real-time charging station mapping and automated billing integration.

Online Bookstore Management System

- Tech Stack: HTML, CSS, JavaScript, PHP, MySQL
- Built a web-based marketplace facilitating book exchange and purchases with intuitive user interaction flows.
- Implemented robust CRUD operations, secure user session management, and relational database schemas.

Education

D Y Patil University Master

Computer Applications - AI & Data Science Pune • 2025 - Present

Focused on AI, Data Science, software engineering, and full-stack application development.

SCMS School of Technology & Management Bachelors

Computer Application Kerala • 2022 - 2025

Certifications

UI/UX Design Training

Feb 2026 – Mar 2026

Skill Orbit

- Learned UI/UX design principles including wireframing, user-centered design, and interface prototyping.
- Studied design fundamentals such as typography, color theory, layout design, and user experience optimization.
- Created user-friendly interface concepts and improved understanding of modern design workflows.

Skills

🔗 Languages & Frameworks

React, Spring Boot, HTML, CSS, JavaScript, PHP, Java

🔗 Web & UI Technologies

Frontend Development, REST APIs, Responsive Web Design, UI/UX Design

🔗 Tools & Platforms

GitHub, Postman, VS Code, Node.js

🔗 Databases

MySQL, PostgreSQL, pgAdmin, phpMyAdmin
